

INSULATION MACHINE CORP

# Accu1 9600

## Insulation Blowing Machine

This all-fiber blowing machine provides high production in a compact package. Powder coated finish and stainless steel fasteners resist corrosion and allow for years of efficient use. Simplified construction reduces the frequency of costly breakdowns and help make each application profitable.

### Production Rates

- Cellulose: 3200 lbs/hr.
- Fiberglass: 1350 lbs/hr.
- Rockwool: 2000 lbs/hr.

### Specifications

- Weight: 1050 lbs.
- Dimensions: 41" W x 50" D x 59" H
- Airlock: 14" long x 12" diameter
- Blower Sizes: 3LP Positive Displacement Blower
- Hopper capacity: 40 cu.ft.
- Power requirements: 15 HP Kohler, 2 Cylinder, Air Cooled Gas Engine
- Hose: 3"

### Features

- Heavy duty base
- 200' remote cord
- Lubricated for life bearings
- Fully guarded drive/power train
- Key start with hour meter/tachometer

### Benefits

- Long term stability - Full 2 Year Warranty
- Operator controls material flow and air 200' from machine
- Limited maintenance
- Operator safety
- Compact power
