

INSULATION MACHINE CORP

# Accu1 FP5000

## Fireproofing Machine

The FP5000 is a portable fireproofing machine engineered with the busy contractor in mind. The variable speed blower control and material feed provide powerful, efficient operation with maximum production from a 230 volt machine. Durable construction and corrosion resistant coating provide long life with minimal maintenance.

### Production Rate

Fireproofing: 5 to 15lbs per minute

### Specifications

- Weight: 390 lbs
- Dimensions: 26" W x 38" D x 48" H
- Hopper Capacity: 12 cu. ft.
- Airlock: 10" L x 10" diameter
- Blower Size: Double 6.8 amp / 3-stage - standard
- Power requirements: 20 amp / 230V 60HZ
- Hose: 2.5" up to 200'

### Features

- Modular component design
- Welded steel construction with powder coated finish
- Hopper guards
- Recessed control panel
- 1.5 hp TEFC drive motor
- Material conditioning card system and Variable Speed Agitator
- Limited moving parts

### Benefits

- Quick part replacement and routine maintenance
- Resists damage and corrosion
- Operator safety
- Avoids unintended power shut downs
- Processes the toughest blowing materials
- Optimum control of conditioning fibers
- Reduced frequency of breakdowns and downtime
